8th Grade

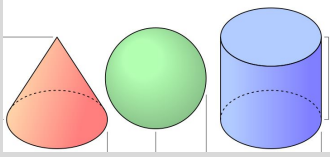

SUBJECT SPOTLIGHT:

Mathematics:

Pre-Algebra: We will be studying congruence and similarity. We will also be working with formulas.

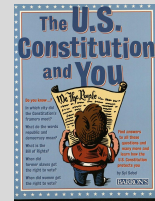

Algebra: We will be learning exponents and roots and starting statistics. We are getting ready to prepare for Keystones!

Social Studies:

During the month of April, students will be learning about and analyzing the events of the Revolutionary War and the drafting of the United States Constitution.

Students will also continue to practice reading and writing skills in the content area to prepare for the PSSA Testing.

English Language Arts:

The ELA focus in April is Greek mythology and essay writing. We will enter into the world of Greek gods, goddesses, and well-known creatures like the Cyclops and the Minotaur. We will also explore myths from around the world. Students will continue to hone their essay writing skills in preparation for high school English.

Science:

The month of April is Life Origins and Force and Motion. In this unit, we will be learning about natural selection and the effects different forces have on objects. Get ready! It's bottle rocket time! Science is so cool!

Spanish:

Students will be learning about foods and will be able to talk about the foods they like and dislike. Also, we will discuss how to read a menu in Spanish, as well as create a menu of their own. Additionally, Spanish 1 students will be conjugating -er and -ir verbs.
